

Academic Reference for XXX

It is a pleasure for me to recommend XXX to you for a study abroad program. XXX is my academic advisee and has been in *three* of my courses in the last *two years*. *He/She* has participated actively and displayed much enthusiasm for *the English language and culture / engineering /...* *He/She* is outspoken and has always communicated well with me as her instructor as well as with her peers.

I fully support *his/her* endeavour to study in XXX. XXX is a highly motivated, diligent and competent student. *His/Her* goal-oriented nature and enthusiasm for studying courses in *political science / biological engineering* alongside with *French/Japanese/English* language and culture classes will enable *him/her* to use this as an opportunity for professional as well as personal growth.

I am confident that XXX will do well in a study-abroad program, both academically and socially. *He/She* seems very well suited to adapt easily to changing circumstances and environments. Clearly a semester *in Sweden/at the University of Vermont* will be an immense help to *him/her*. Additionally, XXX is affable and well-liked by *his/her* fellow classmates and will be a welcome addition to any venture *he/she* attempts.

Sincerely,
